

THE BABBLER

LANDOWNER EDITION

June 2010

Dear Landowners, Members and Friends,
The Long Lake Hounds celebrates its 51st season this year and, because of our Landowners, we are excited to start a new season. We hope we have been good citizens in the past. We are able to do what we do because of your generosity. We consider it a privilege to cross your land and we do not take that permission lightly. We begin our season on July 7 and will finish at Thanksgiving (God willing!)

Please call if you ever have any questions. We are always available to listen and address your questions and concerns. Thank you very, very much for this privilege.

The Masters of Foxhounds Association which is the governing body of the 165 fox hunts in North America, recognized us in 1959. The group began as a trail riding association after WWII as land was purchased by returning GI's. In actuality, the Long Lake Trails Association (LLTA) was founded in the mid-1930's as an organization of people who wanted places to ride to condition their horses.

Foxhunting was happening near Fort Snelling. It was possible to load your horse in a railroad car in the morning and be riding at the Fort by noon. Horses would spend the weekend in what was known as the Armory. (Today that Armory is seen from Highway 62 and is under going renovation by the Boy Scouts as their indoor recreation/education venue.) On Monday morning, grooms would load the horses into the same railroad cars and an engine would come and deliver the horses back to the siding in Wayzata, whereupon the grooms would hack the horses home to their stables. The largest stable was located at Woodhill Country Club, formerly known as the Dunwoody Farm, on County Road 15. It was founded in 1915 and spanned 206 acres. Horses were part of the fabric of the

Woodhill Club until 1958. By that time members of the club had built their own barns in the surrounding area. One of the two barns still exists today and is used for parties.

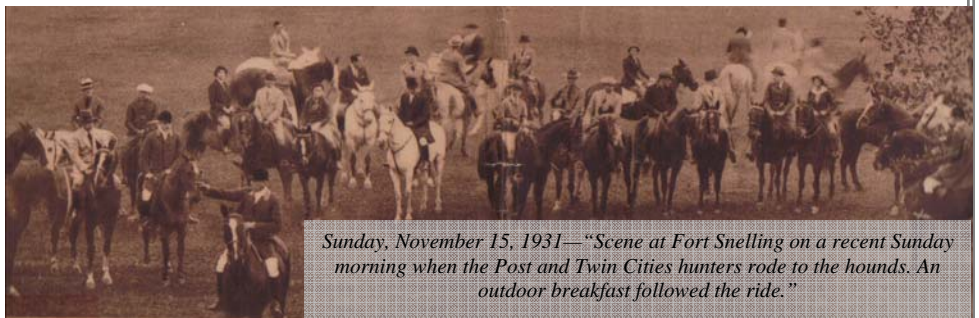

In 1948, a bang-up party was given at the Lake Pavilion (long gone) at Lake Independence. Three hundred people gathered at what was to become an annual event. Volunteers toted 20 cooked turkeys roasted in an oven in Wayzata to the site. There were games for children and a German band providing music for square dancing and community singing.

The Long Lake Trails Association (LLTA) was organized with the purpose of developing an interest in horseback riding. However, it welcomed the entire community to take part in the healthful recreation involving the land.

Success of the venture was proved with a membership of 300 people of like interests. The Sunday morning and Wednesday afternoon rides included many of the landowners and their sons and daughters, along with the original enthusiasts.

There were two groups of riders. The hunters who followed the paneled course (jumping fences, often wearing full hunting regalia). For others, there were bridle paths and cross country trails along which gates were installed that could be opened for the riders' convenience. Special rides were arranged for children. It was not unusual to ride four hours, jump 25 to 30 fences and cover 15 miles.

All of this in 1948.....sixty-two years ago!!! THANK YOU!

COUNTRY KEEPING INFORMATION

All our landowners have been assigned to AREAS. Each AREA has a designated Country Keeper, who along with the Masters, communicates with the landowner. It is the Country Keeper's responsibility to occasionally check the trails for any damage (i.e. fallen tree, wash out etc.). We then assemble a crew of people to come in and repair, clear or clip back branches. We also mow the trails to keep the nettles and weeds from taking over. You will occasionally see a green John Deere tractor & mower. We will call and tell you we will be coming to do trail work.

We also encourage you to call or e-mail us when you see the need for us to come repair. Our mission is to leave the land better than we found it and to maintain the integrity you wish for your property. We consider it a privilege that you allow us to pass across it.

LANDOWNER INFORMATION

Foxhunting – a stunning reminder of old English prints, hounds in full cry and horses moving across beautiful countryside. To enjoy our sport, we need the generosity of landowners such as you. The Long Lake Hounds have respectfully used land for more than 50 years – in Medina, Independence, Wayzata, Maple Plain, and now in the Delano – Watertown area.

We do not chase or kill animals. Ours is a “drag” hunt. Fox scent is squirted upon the ground – creating a trail for the hounds to follow. Our small pack is a disciplined one. They listen to the Huntsman’s horn and follow the direction of the lead horses. The members ride behind. Jumps are made in fence lines with gates for those choosing not to jump.

Our season begins mid-July and ends Thanksgiving Day. Hounds go out on Wednesday and Saturday. Hunts are cancelled if the ground is wet or conditions otherwise unfavorable. Our main concern is the preservation of your land and safety of horse and rider. Every landowner is called prior to each hunt. You will know when we are coming. We use any given piece of land between two and five times during the season. We come through only with your permission and will spend no more than a very few minutes on your land. We invite you to come out and enjoy the sights. Bring your camera!

Trails, jumps and gates are maintained by members. We schedule work days and notify you when our membership will be “country keeping.” Routes are planned with the land owner. Our members will not be riding across your land except during scheduled hunts.

On the question of insurance liability, you are protected in several ways. The State of Minnesota Private Lands and Waters, Public Use law was passed to encourage land owners to share their property by stating that you cannot be found responsible for any accident due to recreational use of your land. A copy of the law is available by calling one of the people listed below. Secondly, the Long Lake Hounds, one of 165 “recognized” hunts in the US and Canada, is covered by an insurance policy issued through the Masters of Fox Hounds Association. We will gladly supply you with a copy of that policy. All you have to do is ask. To receive a copy, call Cindy Piper at (612) 868-2190.

It has been our experience that our activities do not disrupt wild life. While deer might run a short distance from the horses and hounds, they return immediately to their familiar territory. Our pack has been bred and trained to ignore scents other than the scent put down by the drag layers. Our membership is hardworking and dedicated. Some live in town and others keep small farm operations caring for their own horses. All are interested in maintaining the outdoor sporting life both for themselves and others.

We hope you consider the request of the Long Lake Hounds and that our relationship becomes a long and friendly one. Please call any of the following with questions.
