JOIN THE CHASE

ABOUT THE HUNTER'S PACE:

A hunter pace is a competition where horses and riders follow a well marked trail. Prior to the event, Long Lake Hounds Masters ride the trail at the speed that the Field Hunter (trot/canter/gallop) and Hill Topper (walk/trot/canter) flights would go if they were hunting. The Masters pace time is the optimal time and considers the terrain and footing conditions. There will be 8-12 jumps spaced around the course, all of which are optional. Competitors go out in teams of two, three or no more than four to ride the trail. Each group of riders is timed. The group that comes closest to the optimal time for each division wins the competition.

You will get a confirmation of your start time on the Friday before the Pace with the waiver, directions, parking and payment information.

ABOUT LLH:

The Long Lake Hounds, founded in 1959, is Minnesota's only hunt. The Long Lake Hounds is a "drag" hunt meaning it doesn't hunt or involve live foxes. A fox scent is dragged ahead of our pack of foxhounds to simulate the path a pursued fox might take through the woods and over fields. The hounds, at the direction of the Huntsman, find and follow the scent, leading members and guests on a great ride over private trails and fields that the club maintains.
